

TRUESENTRY C3 COMMAND, CONTROL, COMMUNICATIONS

The TrueSentry C3 (Command, Control & Communications) is an advanced surveillance and security management platform that ties your physical security systems and resources together for effective threat detection and proactively pushes this information out to your response teams.

Sensors & Access Control Systems

- Integrate multiple access control and other sensor systems
- OPC, fire, bio/chem/radiation sensors, temperature and RFID
- API device framework for flexible, rapid implementation

Automated Emergency Notification

- Automatically send real-time alerts for a swift response
- Multi-channel delivery via text-to-speech, SMS, e-mail and fax
- Aggregate response and alert status in a centralized place

Integrated Dispatch and Resolution

- Automatically create incidents in any dispatch application
- Native integration to several computer-aided dispatch solutions
- Leverage, manage and deploy all equipment and human assets

GIS & Facility Mapping

- Use GIS & facility maps to access video and other devices
- Support for multiple map layer formats including ESRI
- Point-and-click configuration of cameras or devices on the map

Large Data Wall Displays

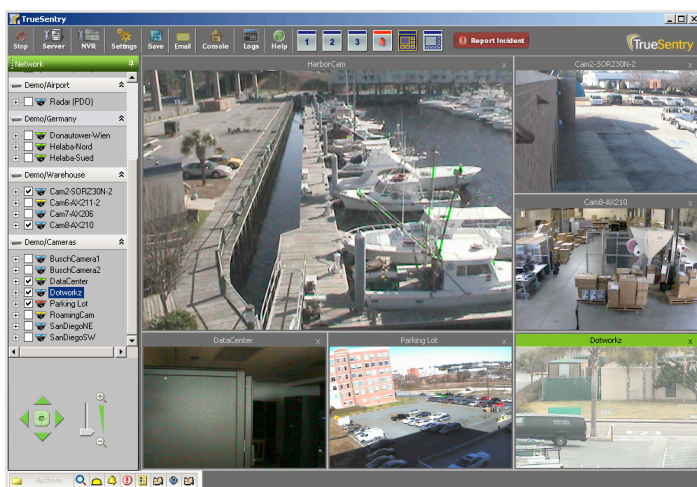

- Data wall displays help visualize an incident more effectively
- Automatically control a wall layout based on incident
- Choose from multiple walls to best fit your command center

Desktop, Web and Handheld Clients

- Multiple customized clients for multiple unique user roles
- Windows clients, a web client and a handheld client
- Access from anywhere on any device

Robust Administration Tools

- Send mass notifications for public emergency notification
- Coordinate first responders, staff, groups, and key personnel
- Email, SMS and voice messages to virtually any device

Intelligent Video Surveillance

- Analog, IP, PTZ, megapixel, infrared and thermal cameras
- Scalable, distributed and reliable digital video recording
- Flexible and fast video delivery on any connection or device

Ruggedized Mobile Video

- Capture video from mobile sources for real-time viewing
- Ruggedized DVRs for any mobile vehicles
- Integrated, "on-person" remote audio recording

Advanced Video Analytics

- Automatically reports more than 80 separate suspicious events
- Distinguishes between humans, automobiles and backgrounds
- Analytics can be deployed "at the edges" for scalability

TrueSystems is the leader in Video Management, Video Surveillance and Security Management technologies. We have a deep history of experience in network camera management which spans back to 1995. During this period, we have deployed hundreds of cameras on every continent of the globe (including the NASA camera on the South Pole). This world wide network of IP-based has captured over 1.5 Billion media clips and delivered them to more than 70 Million users with a 99.999% service up-time. We have also been pioneers of IP camera technology having built the world's first pan/tilt/zoom (PTZ) network camera.
