

TRUELOCATE SCALABLE, INTEGRATED TRACKING

TrueLocate is scalable tracking for vehicles, people and other assets. It monitors the position of security personnel and emergency vehicles, allowing the closest available person or unit to respond to the critical alert. It ensures your response teams are ready to take immediate action in critical situations.

Gather Vehicle Mileage Usage

- Report on total miles driven and average MPG
- See average speeds and set speed limit alerts
- Schedule regular preventative maintenance

Geo-Fence Vehicles & Other Assets

- Alert on route deviation of any vehicle
- Detect extended vehicle stops
- See a history or "breadcrumb" of assets

Solid Architecture

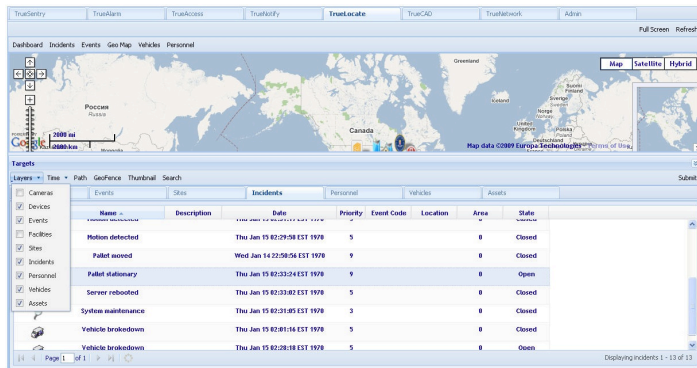

- Open architecture built on a scalable platform
- Ideal for public safety organizations and large enterprises
- Track thousands of assets simultaneously

Easy Web-Based Administration

- Easy to use centralized, web administrative interface
- User friendly information and configuration on each asset
- Simple to customize reports and export data

Command, Control & Communications

- Leverage existing systems and provide an integrated platform
- Upgrade with video surveillance and access control
- Optional, seamless notification and dispatch

Track Vehicles, People & Other Assets

- Track vehicles, people & assets
- Monitor vehicle diagnostics
- Geo-referencing & GIS maps

On-Board Vehicle Diagnostics

- Remote license plate, VIN, make/model inquiry
- Immediate view of the vehicle's current state
- Snapshot of vehicle behavior over the past N hours

Advanced Vehicle Telematics

- Check engine light notifications
- Idle time reporting/Engine hour usage
- Rapid vehicle deceleration alerts

TrueSystems is the leader in Video Management, Video Surveillance and Security Management technologies. We have a deep history of experience in network camera management which spans back to 1995. During this period, we have deployed hundreds of cameras on every continent of the globe (including the NASA camera on the South Pole). This world wide network of IP-based has captured over 1.5 Billion media clips and delivered them to more than 70 Million users with a 99.999% service up-time. We have also been pioneers of IP camera technology having built the world's first pan/tilt/zoom (PTZ) network camera.
