

# TRUEACCESS FACILITY ACCESS CONTROL

TrueAccess is about allowing the right people to the premises and keeping unauthorized ones away. It is tightly integrated to digital video surveillance and robust incident management tools to ensure maximum protection of your facility.

## Partitioned Data By Facility

- Readers, cards and the event data are partitioned
- Partitioned are used in large, multi-facility systems
- Users only see information from their partition

## Integration To Other Hardware

- Communicates to other hardware via communication drivers
- Supported hardware includes IP cameras and recorders
- Employ a common interface across all security hardware

## Advanced Reporting Tool

- Easy, integrated reports allows for simple data extraction
- Report generator can create ad-hoc reports easily
- Reports can be saved for quick, future use

## Role Based Security

- Privileges are assigned to users in groups or "roles"
- Users can belong to multiple roles
- Granting and removing privileges is quick and easy

## Web-Based Administration Tools

- Access to a centralized and easy administrative interface
- Designed to need little or no end user training
- Add end users without software installation

## Flexible, Open Architecture

- Screens can be modified for custom enhancements
- Standards-based to support an existing infrastructure
- Multi-user, scalable, browser-based application

## Device Auto-Discovery

- Simplifies configuration of new device
- Automatic discovery and configuration of new devices
- A technician is not needed to define new devices

## Real-Time Alarm Notification

- Alarm notifications can be routed in real-time to users
- Notifications pushed to Windows or Web clients
- Also pushed through email and SMS to any device

TrueSystems is the leader in Video Management, Video Surveillance and Security Management technologies. We have a deep history of experience in network camera management which spans back to 1995. During this period, we have deployed hundreds of cameras on every continent of the globe (including the NASA camera on the South Pole). This world wide network of IP-based has captured over 1.5 Billion media clips and delivered them to more than 70 Million users with a 99.999% service up-time. We have also been pioneers of IP camera technology having built the world's first pan/tilt/zoom (PTZ) network camera.
