

TRUESENTRY NVR/DVR ROBUST RECORDING SOLUTION

The TrueSentry NVR/DVR is a robust recording solution that is a scalable, flexible and proven platform with over 10 years experience in managing large distributed camera networks. The TrueSentry NVR/DVR natively supports hundreds of camera models, including analog, digital, megapixel, infrared, thermal and pan-tilt-zoom cameras.

Robust Windows Clients

- Powerful "commander" interface and simplified "mini" client
- Automatic flow layouts; 1, 4, 9, 16, 5-1, 7-1 camera grid layouts
- Customizable user interface with drag-n-drop controls

Web and Handheld Clients Too

- Full-featured web-client with no plug-ins to download
- View live streaming video from any connection on any browser
- Windows Mobile and Blackberry clients for mobile video access

Precise Camera Control

- Use on-screen controls or click directly on video image to move
- Digitally zoom in on fixed cameras for enhanced video
- Optional joystick control for pan-tilt-zoom cameras

Secure Video Proxy

- Give select personnel secure access to your video installation
- Manage spikes in video traffic through a secure video proxy
- Use the proxy to backup video for long-term storage

Mature, Proven Technology

- Innovating IP video technology since 1996
- Captured nearly 2B media clips, delivering them to 80M users
- TrueLook hosted video service boasts a %99.997 uptime

Live Video On Any Connection

- No latency video streaming, never miss a live moment of video
- Video compression algorithm adapts to connection speed
- Simultaneous support for multiple video streaming protocols

Scalable Video Recording

- Color and time coded video archives for quick video retrieval
- Dynamically adjust video recording frame rate on alarm
- Flexible options from a simple RAID to NAS

Solid Platform To Grow

- Leverage existing cameras and provide a platform to grow
- Upgrade with video analytics and access control
- Respond to alarms effectively with notification and dispatch

Standard, Open Architecture

- No proprietary hardware or OS; runs on Windows or Linux
- Open APIs to plug in your own devices and applications
- Analog, IP, PTZ, megapixel, infrared and thermal cameras

Powerful Administration

- Access to a centralized and easy administrative interface
- View status and control operation of your entire network
- Changes can be made live with no downtime or restarts

TrueSystems is the leader in Video Management, Video Surveillance and Security Management technologies. We have a deep history of experience in network camera management which spans back to 1995. During this period, we have deployed hundreds of cameras on every continent of the globe (including the NASA camera on the South Pole). This world wide network of IP-based has captured over 1.5 Billion media clips and delivered them to more than 70 Million users with a 99.999% service up-time. We have also been pioneers of IP camera technology having built the world's first pan/tilt/zoom (PTZ) network camera.
